

## Prix Ars Electronica 2002: Honorary Mention Award for Tonga.Online

30 Aug 2002

In 2002 Tonga.Online project has been recognised with a "honorary mention" award in the Net Excellence category and was invited to take part at the Ars Electronica Festival from 7 -12 September in Linz. This has provided the project with a platform for reflection and interactive communication and has been contributing to more attention and support for the Tonga community in Austria and worldwide.

The festival has invited Keith Goddard from Kunzwana Trust / Harare to attend and present his views of the digital divide and the Tonga.Online project at the symposium "UN/PLUGGED - Art as the Scene of Global Conflict".
